Section VII – Precautions for Safe Handling and Use

Steps to Be Taken in Case Material is Released or Spilled

Absorb spilled material with an absorbent material such as clay, sawdust, or sand. Sweep up as much of this as possible and place in a sealed, labeled container, or in a proper landfill. Thoroughly rinse the affected area with water.

Waste Disposal Method

Spilled material should be collected as above for disposal in a landfill according to federal, state and local regulations. Any rinsing of the affected area should also be in accordance with federal, state and local regulations.

Precautions to Be Taking in Handling and Storing

Keep tightly closed while not in use.
